

# CERAMIC COATING CARE CHECKLIST

The following checklist assumes you are using the “Multiple Wash Mitt Method” with a foam gun or cannon. Otherwise, use the “Two Bucket Method”. Use two 5-gal buckets, one with soapy water and the other with rinse water. Insert Grit Guards in both buckets to capture dirt particles. Use Grit Guard Washboard in rinse bucket to scrub mitt and remove dirt.

## SUPPLIES

- |  |   |
|--|---|
| <input type="checkbox"/> PH BALANCED SOAP                    | <input type="checkbox"/> FOAM GUN OR CANNON                 |
