

#### **SECTION 1: Identification**

#### **GHS Product identifier**

Product name Boat Coat Pro

Product number bcp08xx
Brand bcp08xx
Dr. Beasley's

## Recommended use of the chemical and restrictions on use

Polish ingredient with nano-structured particles

## Supplier's details

Name Dr. Beasley's

Address 1439 W Shakespeare Ave

Chicago IL 60614

US

Telephone 773-404-1600

**Emergency phone number** 

CHEMTREC 24 Hours/day; 7 Days/week USA and Canada - Toll Free: 800-424-9300 USA and Canada - Local: +1-703- 527-3887

## **SECTION 2: Hazard identification**

#### Classification of the substance or mixture

GHS classification in accordance with: OSHA (29 CFR 1910.1200, 2024)

Eye Irritation - Classification Not Possible Skin Irritation - Classification Not Possible

Acute Toxicity - Not Classified; 65% of ingredients(s) have no

known acute toxicity

Respiratory Sensitization - Classification Not Possible

Skin Sensitization - Classification Not PossibleNot a hazardous substance or mixture.

#### GHS label elements, including precautionary statements

May cause skin, and respiratory irritation. It may also be harmful if inhaled.

#### Other hazards which do not result in classification

Not a hazardous substance or mixture.

## SECTION 3: Composition/information on ingredients

#### **Mixtures**

Component	Concentration
Dipropylene glycol monomethyl ether (CAS no.: 34590-94-8)	trade secret*
Polymers	trade secret*

#### Trade secret statement (OSHA 1910.1200(i))

\*The specific chemical identities and/or actual concentrations or actual concentration ranges for one or more listed components are being withheld as trade secrets under the US regulation 29 CFR 1910.1200(i).

## **SECTION 4: First-aid measures**

#### Description of necessary first-aid measures

If inhaled	Remove to fresh air and promote dee	p breathing. Get medical attention if

effects persist.

Acute and delayed symptoms and effects: May cause respiratory irritation. Signs/symptoms may include cough, sneezing, nasal discharge, headache,

hoarseness, and nose and throat pain.

In case of skin contact Wash with plenty of soap and water. Get medical attention if irritation

develops or persists.

Acute and delayed symptoms and effects: May cause skin irritation. Signs/symptoms may include localized redness, swelling, and itching.

In case of eye contact Rinse cautiously with water for several minutes. Remove contact lenses, if

present and easy to do. Continue rinsing. If irritation persists, get medical

attention

Acute and delayed symptoms and effects: May cause eye irritation.

Signs/symptoms may include redness, swelling, pain, tearing, and blurred or

hazy vision.

If swallowed Do not induce vomiting. Never give anything by mouth to an unconscious

person. Give water to drink if conscious. Get medical attention if effects

persist.

Acute and delayed symptoms and effects: May cause gastrointestinal irritation. Signs/symptoms may include abdominal pain, stomach upset,

nausea, vomiting and diarrhea.

#### Most important symptoms/effects, acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11

### Indication of immediate medical attention and special treatment needed, if necessary

Symptoms may not appear immediately. Seek medical attention if effects persist and you feel unwell.

## SECTION 5: Fire-fighting measures

#### Suitable extinguishing media

Use water spray, alcohol-resistant foam, dry chemical or carbon dioxide.

#### Specific hazards arising from the chemical

Carbon oxides

#### Special protective actions for fire-fighters

Wear self-contained breathing apparatus for firefighting if necessary.

#### **Further information**

Use water spray to cool unopened containers.

#### **SECTION 6: Accidental release measures**

#### Personal precautions, protective equipment and emergency procedures

Wear personal protection recommended in Section 8. Isolate the hazard area and deny entry to unnecessary and unprotected personnel.

#### **Environmental precautions**

Do not let product enter drains.

#### Methods and materials for containment and cleaning up

Soak up with inert absorbent material and dispose of as hazardous waste. Keep in suitable, closed containers for disposal.

#### Reference to other sections

For disposal see section 13.

## **SECTION 7: Handling and storage**

#### Precautions for safe handling

Avoid contact with skin and eyes. Do not eat, drink or smoke while handling. Wash hands with soap and water after handling. For precautions see section 2.

#### Conditions for safe storage, including any incompatibilities

Keep container tightly closed in a dry and well-ventilated place. Containers which are opened must be carefully resealed and kept upright to prevent leakage. Store material at 5 C (40 F) to 40 C (104 F). Perishable if frozen. Keep from freezing. Keep away from heat, steam, sunlight, sparks and open flame. Store containers tightly closed when not in use.

#### Specific end use(s)

Apart from the uses mentioned in section 1 no other specific uses are stipulated.

#### SECTION 8: Exposure controls/personal protection

## **Control parameters**

#### CAS: 34590-94-8

Dipropylene glycol monomethyl ether

Cal/OSHA (US): 100 ppm, (ST) 150 ppm PEL inhalation [Dipropylene glycol methyl ether]; NIOSH (US): 100 ppm, (ST) 150 ppm REL inhalation [Dipropylene glycol methyl ether]; US/OSHA (US): 600 mg/m3 PEL inhalation [Dipropylene glycol methyl ether]; 100 ppm PEL inhalation [Dipropylene glycol methyl ether]

#### Appropriate engineering controls

Use ventilation adequate to keep exposures (airborne levels of dust, fume, vapor, gas, etc.) below recommended exposure limits.

#### Individual protection measures, such as personal protective equipment (PPE)

#### Eye/face protection

Safety glasses are recommended if splash hazard.

#### Skin protection

Wear protective gloves, such as nitrile gloves.

#### **Body protection**

Wear suitable protective clothing.

#### Respiratory protection

Provide good ventilation. Respiratory protection is not required under normal use conditions.

## **SECTION 9: Physical and chemical properties**

#### Basic physical and chemical properties

Physical state

Color

Odor

Odor threshold

Melting point/freezing point

Boiling point or initial boiling point and boiling range

Liquid

Clear

Slight

No data available.

No data available.

No data available.

Boiling point or initial boiling point and boiling range
Flammability

Lower and upper explosion limit/flammability limit
Flash point

No data available.
No data available.
Doesn't flash

Auto-ignition temperature

Decomposition temperature

Plass Point

No data available.

Density and/or relative density (H20=1) ND Relative vapor density (Air=1.0): >1

## **SECTION 10: Stability and reactivity**

#### Reactivity

None under normal use conditions.

#### **Chemical stability**

Stable under normal storage conditions.

#### Possibility of hazardous reactions

No data available.

#### Conditions to avoid

Heat, flames and sparks. Incompatible products. Keep away from open flames, hot surfaces and sources of ignition.

#### Incompatible materials

Strong oxidizing agents

#### Hazardous decomposition products

Other decomposition products - No data available

In the event of fire: see section 5

## **SECTION 11: Toxicological information**

#### Information on toxicological effects

#### **Acute toxicity**

Components:

Likely Routes of Exposure: Eye contact. Skin contact. Inhalation. Ingestion.

Ingestion: May be harmful if swallowed Eye Contact: May cause mild irritation Skin contact: May cause skin irritation Inhalation: May cause respiratory irritation

Acute and delayed symptoms and effects from inhalation, skin and eye contact and ingestion are listed in Section 4.

#### Skin corrosion/irritation

Based on available data, classification data are not met

#### Serious eye damage/irritation

Based on available data, classification data are not met

#### Respiratory or skin sensitization

Based on available data, classification data are not met

#### Germ cell mutagenicity

Based on available data, classification data are not met

## Carcinogenicity

IARC: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by IARC.

ACGIH: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by ACGIH.

NTP: No component of this product present at levels greater than or equal to 0.1% is identified as a known or anticipated carcinogen by NTP.

OSHA: No component of this product present at levels greater than or equal to 0.1% is identified as a carcinogen or potential carcinogen by OSHA.

#### Reproductive toxicity

Based on available data, classification data are not met

#### Specific target organ toxicity (STOT) - single exposure

Based on available data, classification data are not met

#### Specific target organ toxicity (STOT) - repeated exposure

Based on available data, classification data are not met

#### **Aspiration hazard**

Based on available data, classification data are not met

## **SECTION 12: Ecological information**

#### **Toxicity**

No data available on product.

#### Persistence and degradability

No data available on product.

#### **Bioaccumulative potential**

No data available on product.

#### Mobility in soil

No data available on product.

#### Results of PBT and vPvB assessment

PBT/vPvB assessment not available as chemical safety assessment not required/not conducted

#### Other adverse effects

No data available on product.

## **SECTION 13: Disposal considerations**

## **Disposal methods**

#### **Product disposal**

Disposal should be in accordance with applicable Federal, State and local laws and regulations. Local regulations may be more stringent than State or Federal requirements.

#### Packaging disposal

Dispose of as unused product.

## **SECTION 14: Transport information**

#### DOT (US)

Not dangerous goods

#### **IMDG**

Not dangerous goods

#### **IATA**

Not dangerous goods

## **SECTION 15: Regulatory information**

Safety, health and environmental regulations specific for the product in question

#### **SARA 302 Components**

No chemicals in this material are subject to the reporting requirements of SARA Title III, Section 302.

#### SARA 311/312 Hazards

No SARA hazards.

#### **SARA 313 Components**

This material does not contain any chemical components with known CAS numbers that exceed the threshold (De Minimis) reporting levels established by SARA Title III, Section 313.

#### Massachusetts Right To Know Components (105 CMR 670)

Chemical name: DIPROPYLENE GLYCOL METHYL ETHER

CAS: 34590-94-8

#### **New Jersey Right To Know Components**

Common name: DIPROPYLENE GLYCOL METHYL ETHER

CAS: 34590-94-8

#### Pennsylvania Right To Know Components

Chemical name: PROPANOL, (2-METHOXYMETHYLETHOXY)-

CAS: 34590-94-8

#### California Prop. 65 Components

This product does not contain any chemicals known to State of California to cause cancer, birth defects, or any other reproductive harm.

## **SECTION 16: Other information**

#### Further information/disclaimer

DISCLAIMER: The information above is believed to be accurate and represents the best information currently available to us. However, we make no warranty of merchantability or any other warranty, express or implied, with respect to such information, and we assume no liability resulting from its use. Users should make their own investigation to determine the suitability of information for their particular purposes. In no event shall DR. BEASLEY'S, INC. be liable for any claims, losses, or damages of any third party or for lost profits or any special, indirect, incidental, consequential or exemplary damages, whatsoever arising, even if DR. BEASLEY'S, INC. has been advised of the possibility of such damages.
